## EDUCATION

**XYZ University**  
Bachelors in Computer Science  
CGPA: 9.0/10.00

New York, USA  
August 2019 - May 2023

## EXPERIENCE

**ABC Tech Solutions | Software Engineer** June 2023 - Present

- Revamped UI using modern design patterns, **increased user engagement by 40% and improved accessibility features by 25%**.
- Developed 5 end-to-end features that **reduced operational overhead by 60%**, saving an estimated 100+ hours per month.
- **Architected AWS-based solution** to automate data processing pipeline, **reducing time spent on data processing by 50%**.
- **Designed and implemented cloud storage solution**, improving system uptime by 99.9% through proactive monitoring and redundancy.

**XYZ Software Inc. | Software Engineering Intern** May 2022 - August 2022

- Developed proof of concept for a **real-time collaborative tool**, **improving team productivity by 15%**.
- Designed prototypes for a new **mobile app UI**, which **enhanced usability by 30%** and ensured scalability for future features.

**XYZ Tech Corp. | Software Development Intern** June 2021 - August 2021

- **Developed 3 pages for a mobile app** with internationalization, making it accessible to users in different regions.
- Created a custom **navigation feature**, resulting in a **20% reduction in app load times**.

## PROJECTS

**CodeMaster | Link** *Node.js, React, WebSocket*

- **Real-time collaborative code editor** supporting multiple users editing the same document simultaneously.
- Integrated features like **syntax highlighting** and **real-time code formatting**.

**DataVisuals | Link** *Python, Flask, JavaScript, Bootstrap*

- Built a **data visualization tool** for presenting complex datasets in an interactive and intuitive way.
- Integrated with real-time data sources to **automatically update graphs and charts**.

## HONORS & AWARDS

- **Team Lead**, Hackathon Winner at TechX, developing an award-winning web app for social good.
- **Runner-up** in CodeJam, an internal coding competition at XYZ University.
- **Top 5 Finalist** in Global Web Development Challenge, competing with 300+ teams worldwide.
- **First Place** in National Coding Olympiad.

## TECHNICAL SKILLS

Programming Languages	Python, JavaScript, C++, HTML, CSS
Libraries/Frameworks	React, Node.js, Flask, Express, Bootstrap
Tools / Platforms	Git, Docker, Jenkins, AWS, Visual Studio Code
Databases	MongoDB, PostgreSQL, SQLite
Certifications	AWS Developer Associate, Google Cloud Certified
